**EXAMINER'S AMENDMENT**

1. An Examiner's Amendment to the record appears below to add proper continuation data in the specification. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

2. The application has been amended as follows:

In page 1, before "Field of the Invention", the following paragraph is inserted:

--This application is a continuation-in-part of U.S. application Serial No. 09/419,405, filed 10/14/1999, now Pat. No. 6,516,337.--

3. Applicant is advised that applicant's claiming benefit of earlier filing date of an international application, PCT/US00/28658, under 35 U.S.C. 120, has been denied because applicant has failed to provide a reference in the specification to identify the prior international application and indicate its relationship with respect to the present application (see MPEP 1.78(2)(i)). The examiner has made several attempts to contact applicant's representative, Michael Smith, and had a chance to

Art Unit: 2154

talk to Michelle, who is Mr. Smith's assistant, on October 6, 2005. But the conversation failed to get the required amendment to the specification.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Vu whose telephone number is 571-272-3977. The examiner can normally be reached on Monday through Thursday from 8:00am to 4:00pm.
